

# Panopto - Adding the Panopto Block to Moodle

Panopto is a Moodle integrated tool allowing users to create audio/video files that automatically link to/from the corresponding Moodle courses.

**Purpose:** Installing the Panopto Focus Block in Moodle 2.7 course for the first time.

## Prerequisites:

- Moodle course or Moodle Sandbox
- Understand that there are further steps to be taken before being able to record a lecture using Panopto. Adding the Panopto block is the initial step to allow communication between Moodle and Panopto. See, “Creating Content” informational sheet on EduTools website for next sequential steps.

**Step 1:** Log into Moodle and choose the course in which you want to install Panopto into (<https://moodle.louisiana.edu>). Use your CLID credentials.

**Step 2:** Turn **Editing** on for the course.

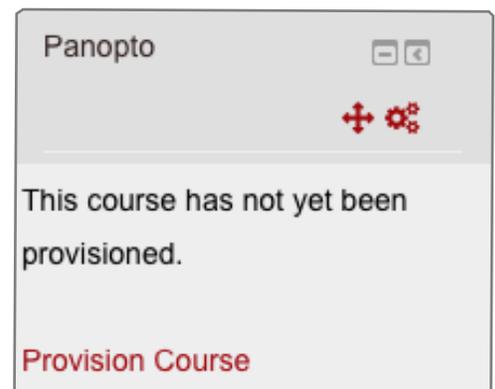

**Step 3:** Scroll down, on the right column locate the **Add A Block** block.

**Step 4:** Click on the **Add...** drop down and select **Panopto**.

**Step 5:** Scroll down, on the right column locate the new Panopto block that was just added. Click on **Provision Course** (see image right).

**Step 6:** The provisioning page opens for the Panopto block. **Verify your name and username** listed under **Creators** section. **Click** the **Back To Course** link.

*\*Note, you will need to Re-Sync your Panopto block within Moodle throughout the semester to get the latest user list updated, especially if you have changes in your class members after this initial sync. See “Panopto: Re-syncing Panopto” info-sheet for step by step directions on the EduTools webpage.*

You have now installed the Panopto block and initiated the Panopto services. There are still a few more steps you need to take before being able to record sessions.

Access the next document in this series entitled, “Panopto: Creating Content” located on the EduTools website.
