

# Panopto - Re-Syncing Panopto in Moodle

Panopto integration into Moodle allows users to create automatic audio/videos links from within a Moodle course. Though the audio/video files you create are always actively syncing with your course the student roster does not.

**Purpose:** You will need to re-sync your Panopto account in each Moodle course, in which you added the Panopto block, from time to time throughout a semester to maintain an updated student roster so any new students will be able to play your content. Please note that the list of students **DOES NOT** automatically update as students DROP or ADD classes within the student information system. If your class enrollment changes, you will need repeat the “sync” process each time; otherwise, students adding your class will not have access to the recorded sessions.

**Prerequisite:** a Moodle course with Panopto Focus block installed.

**Step 1:** Log into your Moodle course and navigate to the course you need to re-sync.

**Step 2:** Click the green **Edit** button on the Moodle page.

**Step 3:** Scroll down to your Panopto Focus block and **click** the **Action** gear icon to configure settings.

**Step 4:** Select **Configure Panopto Block** link in the drop-down menu.

**Step 5:** Now **click** on the link, **Add This Course To Panopto (re-add to sync user list)**.

Configuring a Panopto block

Select the Panopto course to display in this block.

[Add this course to Panopto \(re-add to sync user lists\)](#)

-- OR --

Select an existing course:

**Step 6:** The screen refreshes. You see a list of users that have been updated to your Panopto account. **Click** the **Back To Config** link at the bottom to return to the course.

My home [Panopto](#) [Provision Courses](#)

**Course Name**  
Sandbox- [redacted] : Sandbox- [redacted]

**Publishers**  
No publishers.

**Creators**  
moodle\ [redacted] ( [redacted] < [redacted]@louisiana.edu >)

**Students**  
moodle\tester1, moodle\tester2, moodle\tester3, moodle\tester4

**Result**  
Successfully provisioned course {5595d506-f704-4fb9-85a5-394bc274e237}

[Back to config](#)

**Step 7:** After the page refreshes to the Panopto Configuration page, **click** the **Save Changes** button to complete the process.

You have now successfully forced a re-sync of your Moodle/Panopto student roster to pick up any changes in your course enrollment from the last time it was synced.
